

## Media Response

27 April 2015

### Response

**Please attribute the following statement to Dr Michael Williams, Director of Child and Adolescent Health, Mackay Base Hospital**

Dr Tareq Kamleh worked at Mackay Base Hospital as a paediatric registrar from February to December 2013.

A year is the standard appointment for a registrar.

During his time with the health service he was a very good and caring doctor who related well to patients and other staff.

He was friendly and affable and practiced a good standard of medicine.

No further comments will be made.
