

# New car parks for Birth Centre

Car parks near the Birth Centre and Ronald McDonald Family Room have closed due to new national helicopter landing and take off guidelines that exclude vehicles within 50m of the helipad.

New car parks have been reserved a short distance away. You may still drop off and pick up at the Birth Centre. To park, continue past the helipad and you will see the reserved spaces on the right. There is a pedestrian crossing to access the covered walkway.

The new helicopter guidelines also prohibit people from being within 50m of the helipad and this means the Birth Centre veranda may not be used during landing and take off.
